corpus linguistics for curriculum design explores how corpora can be employed in the design of language curricula both for english as a foreign second language and for other languages this book provides an overview of established approaches to curriculum design and guides the reader towards an understanding of how corpora can be used to inform such processes providing them with the skills needed to use corpora to inform the design of their own curricula this is the first book to systematically and comprehensively set out what corpus informed curriculum design can look like providing in depth coverage of both general english and english for specific purposes it considers a number of different language areas such as grammar vocabulary and pragmatics showing how both item selection and ordering within a curriculum can be informed by corpora this accessible guide is essential reading for students and researchers in teaching english to speakers of other languages tesol applied linguistics english language teaching elt materials design as well as language teachers and curriculum designers

as much as this book is a gift to the user foreign learner it is also a valuable present to the teachers and developers and witters of grammar books for foreign learners the reason why i say this is because i am making available to the english language syllabus writer the objectives he or she has to include in each of the english language levels from beginners to advanced as shown in the sections and parts of this book the student may with or without the help of a facilitator choose the basic review level and proceed to the advanced or skip where he she thinks an exercise or a level is easy for him or her he or she may then proceed to the next level or go back to a lower level to ensure that he or she is mastering and consolidating his or her level the workbook is a valuable document based on language level analysis of each level of language learning and derived from teaching and experimenting on hundreds and hundreds of students of all levels and all nationalities that i have taught throughout my long teaching career and program development and consulting experience it is surely unique in the sense that the objectives taught at each level of language learning are listed at the beginning of the level exercises in the workbook both the teachers and the students will benefit from the workbook as teachers may learn what is taught at each level and students may check if they can use those objectives correctly the workbook calls for review enhancement nurturing

activation testing and finally adjustment where necessary that is where i call this book the renata rebirth of review books as the first letter of each principle indicates it really represents a rebirth of good research in the objectives taught at each level for foreign learners and applying these in the exercises appropriate for each level the workbook is dedicated to all who may use it to benefit and learn from it now and in in the future as well as to all the young boys and girls and adults of all nationalities that i have taught in my long educational career which has certainly helped me enrich my understanding of what they needed and their difficulties of acquiring and functionally using the english language this is not a grammar book that teaches and explains what grammar is or what has been learnt but a comprehensive review manual that only serves as a consolidation and correction tool of the whole of the english grammar and language building blocks learnt to help foreign language learners prepare and pursue college education or apply for a job in today s competitive job market i have not specifically targeted any geographical area by this workbook although it may well serve students from the arabia who are planning to undergo academic or industrial training for oil and chemical industries where i have had the honor to work for a good number of years it also targets the high school and pre college applicants where i spent years of my life teaching and offering consultancy work in program development and i know exactly what those young men and women need in order to establish themselves as successful candidates for academic industrial trades for the jobs and for the business market in general good lucksam christian
